

DCBL/Sangoda Mine/Env/MoEF&CC/EC Compliance/112023/01

Date: 28.11.2023

Additional Principal Chief Conservator of Forests,
Ministry of Environment, Forest & Climate Change
Integrated Regional Office,
Ground Floor, East Wing, New Secretariat Building,
Civil Lines, Nagpur- 440001.

Sub: Compliance Report of Environmental Clearance for Sangoda Limestone Mining project with production capacity of 3,00,000 TPA and Mine Lease Area of 154.70 ha located at Sangoda Village, Tehsil Korpana, District Chandrapur, Maharashtra for the period of April 2023 to September 2023.

Ref: Environmental Clearance F. No. - J-11015/213/2006- IA. II(M) Dated 22.05.2007 and EC Transferred on Dated 06.09.2021

Dear Sir,

With respect to the subject matter and referred above, we are submitting herewith the point wise half yearly compliance of Environmental Clearance for our Sangoda Limestone Mines (ML Area-154.70 ha) for the period of **April-2023 to September-2023**. Soft copy of the EC Compliance report has been emailed to ecompliance-mh@gov.in and also uploaded on MOEF&CC Parivesh Portal.

Submitted for your kind information and record please.

Thanking you

Yours Faithfully,

For Dalmia Cement (Bharat) Ltd.

(Subbaraidu Ayyagari)

Unit Head

- CC:
1. The Regional Director, Central Pollution Control Board (CPCB), Survey No. 110, Dhankude Multi Purpose Hall, Baner Road, Baner, Pune – 411045.
 2. The Member Secretary, Maharashtra Pollution Control Board, Kalpataru Point, 3rd and 4th floor, Opp. CineMax Theatre, Sion (E), Mumbai - 400 022.
 3. Regional Officer, Maharashtra Pollution Control Board (MPCB), 1st Floor, Udyog Bhawan, Railway Station Road, Chandrapur – 442401.

ENVIRONMENTAL CLEARANCE COMPLIANCE REPORT

Ref: Environmental Clearance: Environment Clearance No. - J-11015/213/2006- IA. II(M), Date: 22nd May 2007 & EC Transfer Dated 06th Sept 2021

Name of the Industry: Sangoda Lime Stone Mines, Dalmia Cement Bharat limited,

EC Details – Environmental Clearance for Sangoda Limestone Mine at Tq. Korpana , in Chandrapur Distt., in Maharashtra.

Compliance Period – April 23 to September 2023

Compliance Report –

A. Specific Conditions –

| | | |
|-------|---|---|
| (i) | Topsoil, should be stacked properly with proper slope at ear marked site (s) with adequate measures and should be used for reclamation and rehabilitation of mined out area | <ul style="list-style-type: none">• After acquisition of the Murli Industries Ltd., we have stated the mining recently. The top soil regenerated during the mine's operation will be stacked as per Mining plan. |
| (ii) | External OB dumps and other wastes should be stacked at earmarked sites only and should not be kept active for long period till its use for backfilling. Toe walls around the waste dumps shall be made to ensure and to prevent erosion and surface runoff. The total height of the dumps shall not exceed 30 m, each stage should preferably be of 10 m. Overall slope of the dump shall not exceed 28°. The OB dumps should be scientifically vegetated with suitable native species to prevent erosion and surface run off. In critical areas use of geo textiles shall be undertaken for stabilization of the dumps. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining. Compliance status should be submitted to the Ministry of Environment & Forests on six monthly basis. | <ul style="list-style-type: none">• The topsoil in the mining area striped and preserved along the mine lease boundary.• The height of the dump will be maintained below 30 m at 10 m each stage.• The overall slope of the dump will be maintained below 28°. Native species will be planted on the OB dump to prevent the soil erosion and surface runoff.• Plantation is being carried out for stability of dumps. The top soil will be back filled for reclamation stage of mining.• Monitoring and management of the vegetation will be done till the vegetation become self-sustaining.• The compliance status is being submitted to MoEF&CC along with half yearly compliance report. |
| (iii) | Catch drains and siltation ponds of appropriate size should be constructed to arrest silt and sediment flows from mine working. The water so collected should be utilized for watering the mine area, roads, green belt development etc. The drains should be regularly desilted particularly after monsoon and maintained properly. | <ul style="list-style-type: none">• Catch drains and siltation ponds provided to arrest the silt and sediment flow from the mines working area.• The collected water will be utilized for the Mines operation, Greenbelt development & plantation and dust suppression on roads.• The drains will be regularly desilted at regular intervals and maintained properly. |

| | | |
|--------|--|--|
| (iv) | Garland drain (size, gradient and length) shall be constructed for both mine pit and sump capacity should be designed keeping 50% safety margin over and above peak sudden rainfall (based on 50 years data) and maximum discharge in the area adjoining the mine site. Sump capacity should also provide adequate retention period to allow proper settling of silt material. Sedimentation pits should be constructed at the corners of the garland drains and desilted at regular intervals | Garland drain will be constructed for mine pit & sump capacity will be designed by considering 50 % safety margin based on IMD data of rain fall in the region. Sedimentation pits will be constructed at the corners of the garland drains and desilted at regular intervals |
| (v) | Plantation shall be raised along the mine lease area including OB dumps which will be reclaimed by green belt / afforestation in consultation with the local DFO / Agriculture Department around mine lease area etc. The density of the trees should be around 2500 plants per ha. | After acquisition of the Murli Industries Ltd., we have stated the mining activities recently. The plantation and green belt development activity started along the ML boundary. Plantation will be done at OB dumps with maintaining density of 2500 plants per ha. |
| (vi) | The project authority should implement suitable conservation measures to augment ground water resources in the area in consultation with the Regional Director, Central Ground Water Board. | Construction of the Ground water recharging structures is under progress to enhance the ground water table. Conservation measures will be implemented in the area in consultation with the Regional Director, Central Ground water Board, Nagpur. |
| (vii) | Drilling and blasting shall be by dust extractors and wet drilling. | Drilling and blasting will be carried out by dust extractors. Wet drilling method is being and will be imparted for drilling during mining operation |
| (viii) | Ground water table shall not be encountered during mining operations. Mine working will be restricted to above water table. Prior approval of MOEF shall be taken in case mining intersects ground water table. | <ul style="list-style-type: none"> • As per IBM approved mining plan, ground water table will not be encountered during mining operations. Mine working will be restricted to above water table. • Prior approval will be taken form MoEF&CC in case we intersect the ground water table. |
| (ix) | Regular monitoring of ground water level and quality should be carried out by establishing a network of existing wells and constructing new peizometers during the mining operation. The monitoring should be carried out two times in a year - pre-monsoon (April-May), post-monsoon (November) and the data thus collected may be sent regularly to MOEF, Central Ground Water Authority and Regional Director Central Ground water Board. | <ul style="list-style-type: none"> • Regular monitoring of ground water level and quality is being conducted in and around mining lease area. • Construction of piezometer at mines lease area is under progress. • Pre-monsoon and post monsoon Ground water quality monitoring reports will be submitted to MoEF&CC, CGWA, Regional Director, CGWB. • Ground water quality report is enclosed as Annexure-1 |

| | | |
|--------|---|--|
| (x) | Existing ecological status of the project area shall be conserved and protected. The project proponent should take all possible precautionary measures during mining operation for conservation and protection of endangered fauna (Schedule-I), if any, spotted in the project area. Action plans for the same shall be prepared in consultation with wildlife department along with allocation of funds for this purpose and shall be submitted to R.O. of the Ministry at Bhopal | There is no presence of endangered fauna (Schedule-I) in and around the ML area of Sangoda limestone mine |
| (xi) | Permission from the competent authority should be obtained for drawl of ground water if any, required for the project. | Ground water NOC obtained from CGWB vide NOC No.: CGWA/NOC/MIN/ORIG/2023/18167 dated 12.04.2023. Copy of NOC is enclosed as Annexure-2 |
| (xii) | Suitable rainwater harvesting measures on long-term basis shall be planned and implemented in consultation with Regional Director, CGWB. | We are constructing the rain water harvesting structures to recharge the ground water in consultation with Regional Director, CGWB, Nagpur. |
| (xiii) | An 50m barrier of shale between the ML area and the river shall be no mining zone. The barrier shall be afforested with plantation to prevent inundation of the area. | Noted. An 50m barrier of shale between the ML area and the river is being maintained as no mining zone. The barrier will be afforested with plantation to prevent inundation of the area. |
| (xiv) | The company shall engage a doctor, who is trained in occupational health surveillance. | <ul style="list-style-type: none"> • Company has established the dispensary at the plant site with medical practitioner along with the nursing staff. Company ambulance is available to shift the casualty in case of serious condition or Emergency. • For occupational health and safety measures periodical health check-up is being carried out by medical practitioner. |
| (xv) | At the end of the mine life. The mined out area should be backfilled to the extent possible, levelled and reclaimed by plantations. | At the end of the mine life, the mined-out area will be backfilled and reclaimed by plantation as per the IBM approved mining plan. |
| (xvi) | Vehicular emissions should be kept under control and regularly monitored. Measures shall be taken for maintenance of vehicles used in mining operations and in | <ul style="list-style-type: none"> • Only PUC certified vehicles will be used for mining excavation and transportation. • Vehicles transporting ore will be covered through Tarpaulin to control dust emission. |

| | | |
|---------|---|--|
| | transportation of mineral. The vehicles should be covered with a tarpaulin and shall not be overloaded | |
| (xvii) | The study report of socioeconomic profile including the cropping pattern for 38 villages in buffer zone shall be submitted within one year from the date of issue of environmental clearance and submitted to the Ministry of Environment & Forests. | Complied with Company has been recovered from Insolvency through National Company Law Tribunal (NCLT) route, the older documents are not available. |
| (xviii) | Dimension of the retaining wall at the toe of dumps and OB benches within the mine to check run-off and siltation should be based on the rainfall data | Dimension of the retaining wall at the toe of dumps and OB benches within the mine to check run-off and siltation will be taken based on the rainfall data history in the region |
| (xx) | Sewage treatment plant should be installed for the colony. ETP should also be provided for workshop and mineral separation plant wastewater. | Domestic waste water i.e. office toilets will be disposed-off in Septic tank via soak pit. Water treatment unit will be provided for workshop wastewater. |
| (xxi) | A Final Mine Closure Plan along with details of Corpus Fund should be submitted to the ministry of Environment & Forests 5 years in advance of final mine closure for approval. | A Final Mine Closure Plan along with details of Corpus Fund will be submitted to the ministry of Environment & Forests 5 years in advance of final mine closure for approval. |
| (xxii) | The company shall pay compensation to the land ousters as per the land Acquisition Act/ or as decided by the State Government | Complied with. |
| | General conditions | |
| (i) | No change in mining technology and scope of working shall be made without prior approval of the Ministry of Environment d Forests. | Noted and will be followed. |
| (ii) | No change in the. calendar plan including excavation, quantum of mineral limestone ore and waste shall be made | Noted and will be followed. |
| (iii) | Conservation measures for protection of flora and fauna, in the core & buffer zone shall be drawn up in consultation with the local forest and wildlife department | Noted and will be followed. |
| (iv) | Four ambient air quality-monitoring stations shall be established in the core zone as well as in the buffer zone for RPM, SPM, SO ₂ , NO _x monitoring. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be | We have established four ambient air quality-monitoring stations in the core zone as well as in the buffer zone for monitoring of RPM, SPM, SO ₂ , NO ₂ by considering the metrological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring in consultation with the MPCB. |

| | undertaken in consultation with the State Pollution Control Board | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|--|---|---|---------------------------------------|--------------------------------------|--|--|--|-------|--|---------------------------------------|--------------------------------------|--------------------------------------|-----------------|-----------|--------------|-------------|-------------|--------|-------|-------|------|-------|--------|-------|-------|-------|-------|---------|-------|-------|-------|-------|---------|-------|-------|------|-------|--------|-------|-------|-------|-------|--------|-------|-------|------|-------|--|--|--|--|--|--------|-------|-------|------|------|--------|-------|-------|------|-------|---------|-------|-------|------|-------|---------|-------|-------|------|-------|--------|-------|-------|-----|-------|--------|-------|-------|------|-------|--|--|--|--|--|--------|-------|-------|------|-------|--------|-------|-------|------|-------|---------|-------|-------|-------|-------|---------|-------|-------|------|-------|--------|-------|-------|-------|-------|--------|-------|-------|------|-------|---------------------------------------|--|--|--|--|--------|-------|-------|------|-------|--------|-------|-------|------|-------|---------|----|-------|------|-------|---------|-------|------|-------|-------|
| (v) | Data on ambient air quality (RPM, SPM, SO ₂ , NO _x) should be regularly submitted to the Ministry including its Regional office located at Bhopal and the State Pollution Control Board / Central Pollution Control Board once in six months | <ul style="list-style-type: none"> Half yearly data on ambient air quality (RPM, SPM, SO₂, NO₂) is being submitted to MPCB on Monthly basis and to the Integrated Regional office of MoEF&CC, Nagpur, Regional Office of CPCB, Pune along with the half yearly compliance report. Website: cgwa-noc.gov.in

पानी बचाये - जीवन बचाये
SAVE WATER - SAVE LIFE

Validity of this NOC shall be subject to compliance of the following conditions:

Mandatory conditions:

- 1) Installation of tamper proof digital water flow meter with telemetry on all the abstraction structure(s) shall be mandatory for all users seeking No Objection Certificate and intimation regarding their installation shall be communicated to the CGWA within 30 days of grant of No Objection Certificate.
- 2) Proponents shall mandatorily get water flow meter calibrated from an authorized agency once in a year.
- 3) Construction of purpose-built observation wells (piezometers) for ground water level monitoring shall be mandatory as per Section 14 of Guidelines. Water level data shall be made available to CGWA through web portal. Detailed guidelines for construction of piezometers are given in Annexure-II of the guidelines.
- 4) Proponents shall monitor quality of ground water from the abstraction structure(s) once in a year. Water samples from bore wells/ tube wells / dug wells shall be collected during April/May every year and analysed in NABL accredited laboratories for basic parameters (cations and anions), heavy metals, pesticides/ organic compounds etc. Water quality data shall be made available to CGWA through the web portal.
- 5) In case of mining projects, additional key wells shall be established in consultation with the Regional Director, CGWB for ground water level monitoring four (4) times a year (January, May, August and November) in core as well as buffer zones of the mine.
- 6) In case of mining project the firm shall submit water quality report of mine discharge/ seepage from Govt. approved/ NABL accredited lab.
- 7) The firm shall report compliance of the NOC conditions online in the website (www.cgwa-noc.gov.in) within one year from the date of issue of this NOC.
- 8) Industries abstracting ground water in excess of 100 m³/d shall undertake annual water audit through certified auditors and submit audit reports within three months of completion of the same to CGWA. All such industries shall be required to reduce their ground water use by at least 20% over the next three years through appropriate means.
- 9) Application for renewal can be submitted online from 90 days before the expiry of NOC. Ground water withdrawal, if any, after expiry of NOC shall be illegal & liable for legal action as per provisions of Environment (Protection) Act, 1986.
- 10) This NOC is subject to prevailing Central/State Government rules/laws/norms or Court orders related to construction of tube well/ground water abstraction structure / recharge or conservation structure/discharge of effluents or any such matter as applicable.

General conditions:

- 11) No additional ground water abstraction and/or de-watering structures shall be constructed for this purpose without prior approval of the Central Ground Water Authority (CGWA).
- 12) The proponent shall seek prior permission from CGWA for any increase in quantum of groundwater abstraction (more than that permitted in NOC for specific period).
- 13) Proponents shall install roof top rain water harvesting in the premise as per the existing building bye laws in the premise.
- 14) The project proponent shall take all necessary measures to prevent contamination of ground water in the premises failing which the firm shall be responsible for any consequences arising thereupon.
- 15) In case of industries that are likely to contaminate the ground water, no recharge measures shall be taken up by the firm inside the plant premises. The runoff generated from the rooftop shall be stored and put to beneficial use by the firm.
- 16) Wherever feasible, requirement of water for greenbelt (horticulture) shall be met from recycled / treated waste water.
- 17) Wherever the NOC is for abstraction of saline water and the existing wells (s) is /are yielding fresh water, the same shall be sealed and new tubewell(s) tapping saline water zone shall be constructed within 3 months of the issuance of NOC. The firm shall also ensure safe disposal of saline residue, if any.
- 18) Unexpected variations in inflow of ground water into the mine pit, if any, shall be reported to the concerned Regional Director, Central Ground Water Board.
- 19) In case of violation of any NOC conditions, the applicant shall be liable to pay the penalties as per Section 16 of Guidelines.
- 20) This NOC does not absolve the proponents of their obligation / requirement to obtain other statutory and administrative clearances from appropriate authorities.
- 21) The issue of this NOC does not imply that other statutory / administrative clearances shall be granted to the project by the concerned authorities. Such authorities would consider the project on merits and take decisions independently of the NOC.
- 22) In case of change of ownership, new owner of the industry will have to apply for incorporation of necessary changes in the No Objection Certificate with documentary proof within 60 days of taking over possession of the premises.
- 23) This NOC is being issued without any prejudice to the directions of the Hon'ble NGT/court orders in cases related to ground water or any other related matters.
- 24) Proponents, who have installed/constructed artificial recharge structures in compliance of the NOC granted to them previously and have availed rebate of upto 50% (fifty percent) in the ground water abstraction charges/ground water restoration charges, shall continue to regularly maintain artificial recharge structures.
- 25) Industries which are likely to cause ground water pollution e.g. Tanning, Slaughter Houses, Dye, Chemical/ Petrochemical, Coal washeries, pharmaceutical, other hazardous units etc. (as per CPCPE list) need to undertake necessary well head protection measures to ensure prevention of ground water pollution as per Annexure III of the guidelines.
- 26) In case of new infrastructure projects having ground water abstraction of more than 20 m³/day, the firm/entity shall ensure implementation of dual water supply system in the projects.
- 27) In case of infrastructure projects, paved/parking area must be covered with interlocking/perforated tiles or other suitable measures to ensure groundwater infiltration/harvesting.
- 28) In case of coal and other base metal mining projects, the project proponent shall use the advance dewatering technology (by construction of series of dewatering abstraction structures) to avoid contamination of surface water.
- 29) The NOC issued is conditional subject to the conditions mentioned in the Public notice dated 27.01.2021 failing which penalty/EC/cancellation of NOC shall be imposed as the case may be.
- 30) This NOC is issued subject to the clearance of Expert Appraisal Committee (EAC) (if applicable).

(Non-compliance of the conditions mentioned above is likely to result in the cancellation of NOC and legal action against the proponent.)
